Unique and pretty high potential project out for sale here. We are sad that we have to let this go to someone else, that this has been really interesting for our team for months back.

The reason for us selling this is because lack of motivation. We've been spending many many months without getting any forward.

The site has many cool functions. There are some improvements that has to be done to the frontend, like animations etc etc.

PvP (Player vs Player casino) with following games: Jackpot and Coinflip.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
