Thread: [SiriusXM & Amazon | 3 months of Premier Streaming & Amazon Echo DOT for under \\$3!!](#)

\$JayViaLV - July 21, 2020, 7:41 am

Want an Amazon Echo Dot for super cheap? We're talking change in your center console cheap. I paid \$1.09 and got my Amazon EchoDot 3 days after I signed up for this promotion.

What you gotta do?

Go [here](#). Follow the on screen prompts and then you're set. Check your email maybe 5 minutes to a half hour after completing set up and you'll receive an email from SiriusXM with a redemption code you enter at check out on Amazon.

What's the catch? If you don't cancel within 90 days you'll see a second charge and that is a recurring payment so make sure you cancel whenever you get your dot! There are no cancel fees so get the DOT and cancel.

I work for SiriusXM this is true.

You sign up for siriusxm for \$1 then they will email you a code within 5 minutes to 24 hours with a promo code for amazon. You select your echo dot add it to the cart select shipping(free so you don't pay) then input the code in the 'promo code/coupon code' and it removes the price making it \$0.

All you would have to do is go through the prompts and check your email. You will receive a promo code from SXM to implement towards check out.

Updated this morning that this promotion no longer comes with the Alexa Dot. Congrats if you got one.
