Thread: [Selling a special service around Facebook, leads, and doxxing.](#)

FbLeads - July 21, 2020, 8:05 am

Hey.

I am able to get the phone number behind almost any Facebook account, as long as it has a phone linked, it works in about 40% of cases. you will only pay if I found a result. \$5 per 1 account.

??

I am also selling phone leads from any country you choose at a rate of \$100 per 10,000.

The information you get is:

Phone, Facebook ID, Name, Last Name, Clty, Workplace.

some don't have the City and workplace but all of them have the Phone, Facebook ID, Name, Last name.

??

In addition, if you provide me with a Facebook public group, I am able to extract up to 10,000 users per group and provide you the phone numbers of around 30%-40% of the users in that group.

That would cost you \$100 per 1,000

I am willing to give some vouch samples for reputable members, write down what country you want leads from and I'll give free 1000 samples to 5 users.
