While I don't have this myself, I'd love to know if you do come across this as it's something I'd benefit from too!

I can code a bot which would mass report Twitter account, but I have no idea, if it will really works for banning account.

I can also code account creator, which you can use for the reportingt

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page

and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
