Not in a hurry but yeah I didn't got much offers upon posting a thread on CE section for a week + now?

u should use more of bump function, you don't have much responds in thread and because of that it is on 3rd-4th-5th page where noone usually looks at, cause they find what they need on 1st page

Also u should look at section way often, check who sells and hunt them

Use convo/pm, remind agc sellers that u buying, anytime

few advices from me, hope it helps

I'm not sure if purse is still alive, but I think that is a good option

Yup.

Also, paxful is full of scammer and carders so be aware. If you aren't desperate I wouldn't buy them

from there.

Your bet is the currency exchange tbh, I've gotten a decent amount from there. If not less competition :)

would be careful with Paxful there's much better places to get AGC. 50% is pretty low but I have seen some places that are legit for that price. Just look at their reputation/reviews as you would on here as well

it's not the best place of buying, there is a lot of scammers and lots of gift cards from illegal sources

you can not buy a legit AGC for 50% ... never ever!!! ... maybe low denominations \$10-20 cards but for such amount \$1500 the cards are not legit at all :) drop me a line and I will explain you. I also sell AGC but again AGC can't be legit at 50%

I'd suggest you not to buy from there, especially with such amounts.

If you know any reliable AGC supplier, then you may go for it.
