Thread: [Well... Buying a ton of stuff... Mice, iPhone, etc.](#)

LoveToHax - August 13, 2010, 6:32 pm

Here's a list of what I can buy, and the prices... BTW, all new please...

Microsoft Sidewinder x8: Looking for \$25 or less

Microsoft Sidewinder x6: Currently someone wants to sell for \$16

iPhone 4: Decided not to buy

iPhone 3GS: Decided not to buy

Logitech C510: Pondering... Might take a different one...

Looked through threads and updated prices.

Yup, I don't expect these to be "legit" sellers if you know what I mean ;)

EDIT:

I may not be able to... I'll update this...

Cuz I need to buy a monitor to set up one of my comps for this...
