Thread: [HIRING CHEAT DEVELOPER | PARTNERSHIP OR PAID PER CHEAT](#)

CookiesDev - July 23, 2020, 4:13 am

I am currently looking for someone who can develop cheats for some of the most popular games out right now including: Warzone , Apex Legends , Rainbow Six Siege etc...

What do I need to be able to do ?

A successful candidate must be able to make Internal / External Cheats For The New Up And Coming Games.

The main games we will be making will be using battle eye so have a good understanding of how it works will be helpful

Having knowledge on writing drivers will also be of value.

Living somewhere in the UK or close to it would be great also so we can stay in contact throughout the day if you do live further away that is fine but with timezones it may be hard to keep each other updated but it can work

How Do I Get Paid ?

You have 2 options for this

A: I will pay u per cheat u develop which is undetected and will then pay further to anymore work that might be required to that cheat

B: We have a partnership in which you develop the cheats and keeping them undetected and I will handle everything else including making the website sorting out logos

thread designs , support tickets , payments and everything else that will have to be sorted out I will be the main advertiser for the service and we will grow and expand our cheats above and beyond.

So Whats Next ?

If you feel like you would like to take part and join me on this adventure message here or leave a post below:

[contract=tid]Start Contract[/contract]

I mean you really have no idea what u are talking about but thanks for your input even tho it wasn't asked for. If you for one could fucking read there is the option for them to get paid for doing the work without taking a risk on how many customers I can bring in so if you would like to take those comments else where that would be greatly appreciated

Many Go Fuck Yourself's

Cookies ?

Humaantje - July 23, 2020, 4:41 am

Go learn some proper english first if you want to be a dick and cant handle the trust cutey.

CookiesDev - July 23, 2020, 12:57 pm

Still looking for someone dm me now!

CookiesDev - July 28, 2020, 8:35 am

Bump this thread thanksss
