Hi, what are the limits on Twitter? I would like to generate niche traffic to a Discord. Obviously not every user is going to be interested... How many tweets can I tweet per account per hour (without getting flagged/banned)?

Will you also add a feature that auto reply's to a users tweets as soon as he posts them?

Instagram Bot I am selling. (Check out my threads)

I am more than happy to help you with any question you might have regarding the bot and how it works.

Are there options within the Mass Follow/Unfollow? Such as unfollowing who doesn't follow back, unfollow by follower ratio, etc. Follow people who follow X, follow people who retweeted Y, etc? Very interested if so... Send me a PM, I can't send you one yet

Yes, there is an option on Mass Follow & Unfollow.

Unfollowing who doesn't follow back isn't an option yet.

Yes, you can follow people who follow someone. It will follow the followers of Lana Rhoades for example.

It can scrape tweets which have an hashtag on it.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
