Thread: [Selling Blackhat Methods](#)

Longdog - July 24, 2020, 11:50 am

First of all I just want to say, I know the rule in the [Help Docs](#) and I'm not trying to harm another man's hustle.

What is the status of stuff like this: <https://hackforums.net/showthread.php?tid=6096082>
Are we allowed to do this as long as it doesn't contain carding or is it just 100% not allowed altogether?

Once again not trying to ruin his hustle, just asking for my own sake.

If you are allowed to sell blackhat methods, what are the limitations as to what is not allowed besides the obvious carding?

Thanks once again guys, just don't wanna post anything not allowed. Love you.

Also status on buying stickies on blackhat training section?

I think Omniscient made an important thread about the that particular question. Not 100% sure though as I can't check for you right now.

I think this counts for the 'blackhat training' sales too? Assuming though.
Contact Staff for a straight answer or use common sense. I can't help you with that.

Just because someone says it's blackhat, doesn't mean it's blackhat. Sellers try to market and lie their teeth out in favor of getting sales.

That being said, you cannot sell anything that's related to

It doesn't matter what you write on your sales thread - grey, white, black or pink hat, it cannot violate DBA or any other forum policy.

No, it doesn't. It says education purposes in the thread itself which is the whole purpose of that forum.

Thank you Eagle, also for the sticky in the blackhat training section, is that possible? I see it as an option in buysticky.php but just wondering sir.

Thanks for the timely reply nonetheless.

All stickies must comply with all HF policies so it doesn't matter for what forum you purchase a sticky. It says on the buy sticky page...
