Thread: [How does your Kitchen look like?](#)

flavoral - July 24, 2020, 2:10 pm

We had a show us how does your phone look like, show us how your desktop look like, show us how your PC setup look like, but what about kitchens? No love for kitchens?

So show us a picture of a part or full look/view of your kitchen, it could also be a mini fridge next to your desk.

Wow that's a nice kitchen.

My kitchen isn't worth showing, to be honest, most American kitchens are going to blow our shitty British kitchens out the water.

That would be one of the best decisions you'd ever make, I fucking love cooking and feeding others hehe.

Zexi - July 24, 2020, 3:23 pm

I'd compliment the kitchen but the quality of the photo gave me conjunctivitis.

jecoylecoy - July 24, 2020, 4:01 pm

Well, my kitchen looks odd. We feed chicken in our kitchen. :)

Blogger - July 24, 2020, 5:34 pm

I'll actually post later because I want to upgrade my kitchen and I'm looking for suggestions on how I can add an island to it.

Injun Joe - July 24, 2020, 8:24 pm

Kitchen cum bedroom cum sitting room is all I have. It's impossible to take kitchen photo without showing the bed. ?

HEISENPUG - July 24, 2020, 8:28 pm

Is that contain the methods to create magic spells

The Avengers - July 24, 2020, 10:13 pm

My kitchen tends to be kept quite clean but it is quite dated, it is in desperate need of a renovation haha. I'm a bit embarrassed to post a pic to be honest.

I would post a piture, but it's super dirty at the moment and I'm heading out of the house. So just imagine, it's a U shape with a island in the middle of it, marble on the U countertops and tile as the

island counter top.

a323109 - July 25, 2020, 8:15 am
