So I got a vouch copy for this. An I have to say I am very impressed.
It has great ease of use, functionality and desired results.
I would be still happy with it if it was slightly buggy or even needed a few things.
But I cant really think of much if anything that it does.
Its simple, easy to use, and it does what it says it is going to.

What little help I need or questions that I had were quickly responded too
and you can tell he knows his stuff.

Very happy with my vouch copy and I would look forward to purchasing any future
products or tools you might release.

Thanks again!

Wouldn't features like mass comment follow unfollow etc etc cause a account to get action blocked
though? Can you further explain how you're preventing this if at all?

The features you mentioned, can and will actively make the account action blocked. But, if you use
"x" seconds between calls, then the account will barely get action blocked and you'll enjoy a healthy
and long-standing account.

is this bot like jarvee ?

Feature-wise, not really. Jarvee has more advanced features but it's quite expensive.
Their cheapest version is 30€/month. Meanwhile our bot costs only \$35 for Lifetime with updates for
free.

Yes, it can.

Nope. You can limit the actions in matters of seconds on the bot to not get soft banned.

Wait, is this same as Kaspr's bot but you bought ownership?

I bought this a while back but wondering if auto-like was ever implemented.

Yeah, I bought Kaspr's ownership rights.

New features haven't been added, but I am considering it.

Viewing and downloading?

Doubt you can even get banned for viewing mass stories.

I am not selling a Money Making method bud, it's a bot. It's totally up to you and your skills on the money making field.

MarketGenius - September 17, 2020, 7:21 am

It doesn't use your account to scrape.

And it can get you any OnlyFans model that you request.

pipito - September 19, 2020, 3:25 pm

Your contribution looks pretty good, buddy. You may want to buy it if I can create an Only Fans account.

So far I haven't had any of my customers get their account banned using my bot.

No, it doesn't run on iOS but I can help you set it up on a Virtual Machine which won't take a lot of space.

Well, gotta thank him for the bump then.

Stanley - December 3, 2020, 3:28 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
