Is this US only or will it work in the UK?

If it's US only, anyone willing to grab one and sell it to me for cheap?

Depending on what you mean by cheap, honestly you can probably find it on Facebook Marketplace or eBay for ~\$15. People are selling them off from getting them for free via other ways (Spotify Premium, Youtube Premium, Google Fi, and some others I'm sure).

Does it still work? Doesn't seem to be any trial options on the site. Although maybe Baccuse I'm trying from New Zealand lol.

seems like they disabled trial due to abuse. But they still offer a free google home mini if you want to purchase a yearly plan.
