Thread: [If you could have a super powers ...](#)

?aked - July 29, 2020, 10:21 am

If you could choose one super power, what would you choose and why?
What would you do with it?

This will be an interesting topic and a good read!

SIM-3587630 - July 29, 2020, 10:30 am

First of all, I would try to hide my superpowers so that they can't take me to use me as a test subject or whatever. Anyway I'd choose to be invisible, being able to fly wouldn't be that bad either

Free Kurdistan - July 29, 2020, 10:30 am

Immortality ofc.

If not then mindreader or invisibility.

Immortality is kinda obvious since I would never die and whatever I do I can't be killed for it.
Invisibility because I can see some people I ain't supposed to see. ? And mindreader to know what everyone is thinking about me and about everyone/everything else.

jaded7 - July 29, 2020, 10:35 am

Intelligence can be a superpower if honed and mastered. I would like the ability to store and remember information as easily and efficiently as a modern PC.

Prox - July 29, 2020, 10:37 am

Teleportation, obviously.

I just feel it's the all around superior superpower.

Being invisible would be sad, flying would be scary, invincibility is good but not useful unless you're being fought.

Blockonome - July 29, 2020, 10:40 am

The ability to freeze time, as in being the only living being to move and manipulate other living beings and objects while freezing time. Of course unlimited freezing of time! So that would be real nice!

Exalted - July 29, 2020, 10:42 am

I would pick teleportation, you can go anywhere you want, and do almost anything you want. Live like a king, or enhance your normal life—live life like a truly free man.

Ha, I had a [thread](#) just like this.

You could still be locked up with immortality and you'd spend the rest of your days in a cell.

Bacardi Cola Lime - July 29, 2020, 10:44 am

I'd want to either be able to be invisible when I want to, or be able to teleport.

Limitado - July 29, 2020, 10:55 am

I would like to go back in time, most op super power imo

Immortality as well, it's suck having to watch ever one I ever love die but it'd be crazy to be able to see the world over that mean years

Cooligan - July 29, 2020, 11:19 am

This is one of those questions you always have so many answers to and can never really pick one I feel like.

Though I suppose if I had to, most likely I'd choose time travel. Being able to go to any point in time AT any time..that'd be truly amazing.

A travelers dream.

itcorp - July 29, 2020, 11:33 am

My choice would definitely be super strength and flying

Shaggy - July 29, 2020, 11:41 am

Well if there are other people with powers I would definitely choose the power to steal other peoples powers. But if i was the only one I would choose (See the future)

crixus - July 29, 2020, 11:49 am

I choose to have the best brain. a super brain. Imagine if you could have all the good chemicals on the brain on their peak 24/7

Without any drug.

Man flying would be hella fun. Except you could hit birds, planes and what not. Still.

If not then mindreader or invisibility.

You'd have to think of the longer term effects of having immortality. In billions of years (or millions) and earth is gone what do you do then? Just floating around in space being fully conscious.

Yin Yang - July 29, 2020, 4:11 pm

Being able to fly or turn invisible would be dope

Lynx - July 30, 2020, 7:51 am

I have no idea. Best I can think of is teleportation or something like that. Would definitely not want to live for ever. Imagine being sentenced to life in prison O.O

YoungPriest - July 30, 2020, 8:17 am

Being able to freeze time or go back in time. Not aging would be nice aswell.

Now if you could have 2 super powers, one being immortality and another teleportation, that would be bad ass, but after a while life would have no meaning and you would of seen everything and done everything there was to do, you would eventually get bored.

Turn everything in gold with my mind, and revertable.

This way I could assure my own safety, and get more gold on earth so we don't fuck w space.

SIM-1232764 - July 30, 2020, 4:54 pm

Ability to absorb and retain knowledge. (Touch a book and instantly have it memorized. Touch a person and instantly have their skills).
