Thread: [How many towels do you use when you shower?](#)

Fortunate - July 29, 2020, 1:16 pm

This might be the weirdest thread I've written. I can't remember correctly but there was a [thread](#) 2-3 years ago where someone said that they use 2 towels when they shower.

I'm still baffled by the fact that some people out there use 2 towels after showering, one for face, body and one for private parts.

So, I want to know... do you use 2 towels when you shower or is that a thing?

I just use a single towel.

ikgatonpakken - July 29, 2020, 1:18 pm

I just use 1 shower or a robe.

If you use two towels to shower you are a wasteful, despicable and BAD human being.

Real men don't use towels. We just shake until dry, no matter how long it takes.

push it on to me!

Do people not use the same towel many times? You've literally just finished cleaning yourself

Lol nice thread. As a kid I used to use a bathrobe which I put on directly after shower, now I just use 1 towel and that's it.

Forensic - March 16, 2021, 9:32 am

Sometimes 1 sometimes 2 or 3. Depends. Usually I am using 2 as I don't want my phone to get wet and I have a lot of hair right now

TB12 - March 16, 2021, 9:39 am

I use one, I use one part of the towel for my other areas I don't want rubbed onto my face lol

Juoku - March 16, 2021, 2:57 pm

I only use one towel, never heard of anyone using more than one (not counting shower robes as towels).

maybe if I was super rich I would use a single towel for every part of my body lol

Rev - March 16, 2021, 7:04 pm

If you need a different towel to dry different parts of your body, I think you're missing the entire concept of a shower.

Maskin - March 16, 2021, 9:01 pm

Just one, but I wonder how many times do people use a towel before washing it? Maybe that's for another thread.

Condoms - March 16, 2021, 9:04 pm

15 + 1 towel at times...

But naah.. All I really need is simply a single towel.

I actually do this too, but it's not a regular towel for me, it's a really small one.

This is the only use of two towels that I can get around with.
