Amazon gift card(s) are one of the most used method, but be sure not to block/scam buyers in order not to get the gift card claimed back. I can't help you with the gf thingy.

1. Gift cards, any cards you can personally use or know of a way to sell.
2. Yes, people are into that.

i would use amazon gift card .then convert to btc.never used amazon gc so if i redeem that coupon to my account balance he cant take it back right ? im thinking about collecting gift cards and load it to my account then after reaching certain amount of balance i can send again gift cards to btc sellers.

i also need some good packs.i wont share with anybody .

Amazon gift card, CashApp, Venmo, Google Pay, Bitcoin, etc.

Yes, they will definitely pay for GFE.
