Thread: [| Facebook Agency Ad Accounts | @ecomplayboy | Serious Inquiry.](#)

ecomplayboy - July 30, 2020, 11:19 pm

Hello!

Our team has decided to expand to new places and here we are.

We have access to agency ad accounts. Unlimited spending power (\$100k+/day).
Can support both Black Hat and White Hat spend.

Our minimum spend has also changed: Our minimum spend per ad account is now at \$2k+/day on ads

Our rates have changed, they are at 15% (Negotiable - No one will actually negotiate this with you, but we can)

These rates will decrease as soon as you start increasing your budget.

e.g.: Your starting minimum spend per day is \$2k @ a 15% rate (also per day). As soon as you increase your ad budget to \$5k/day for spend, we will automatically lower your rates to 7% (also per day)

Features:

?Your ad account won't get deactivated by any means possible. Especially if it's whitehat content, we only run the risk of the account being deactivated if you heavily violate Facebook's ToS (Terms of Service & Conditions). That means porn, etc.

?It doesn't matter if it's a product, a software, you can advertise anything you want without worrying of getting your account deactivated.

?You will be renting the account essentially.

?For limited time, we are putting the minimum spend at \$5k/day, the rates will be 7% and they're negotiable.

Just for the record:

The previous minimum ad spend was \$10k+ per day @ 2%, but we are now looking for potential clients.

Any further questions, we are now available.
