Thread: [Has your discord account ever been disabled?](#)

Sickness - July 31, 2020, 3:00 am

I just woke up, started my PC, and saw that my account has been disabled.

I've sent a support ticket, contacted their twitter, and will send another email to see if I have some luck getting it back.

I don't know what I did bad but men, I just lost about 13 months of discord nitro that I had stacked up, a legit #0001 and many information and important contacts I had there...

What should I do?

123 - July 31, 2020, 3:08 am

From my experience, once Discord Account is banned. It's very very difficult to get it reinstat back !!

I don't know why your account was banned. Hopefully, you get it back.

Hood luck !!

YoungPriest - July 31, 2020, 3:14 am

It depends on why it got banned. In some cases if it's a mistake you'll get it back easily if not then rip ur account.

Dopamine - July 31, 2020, 3:30 am

I wish you the best chance to recover your account, OP.

Free Kurdistan - July 31, 2020, 3:32 am

Have had my account since the very beginning of Discord, never got in trouble.

Lynx - July 31, 2020, 3:37 am

This is why I hate discord. They ban accounts for no reason at all or for the smallest violations. I only use discord because my friends use it.

SIM-3587630 - July 31, 2020, 3:39 am

I don't really use discord that much, sometimes not even twice a week. But thei support looks solid imho, if it's a mistake on their side, you should have it unbanned asap

PAXFun - July 31, 2020, 3:40 am

Never been disabled before, and i hope that wont catch me.

That's true. You can probably easy make a false report on someone and get them banned as well idk.

They're soulless and don't enjoy freedom ???
Damn, sounds like their support system sucks.

Before I have once have a discord that I can open and it's pretty hard even I tried to reset it on my email it won't work.

SIM-1729678 - July 31, 2020, 7:52 am

sniped.
And there ladies and gentlemen is the reason for the ban.

MarvinMalware - July 31, 2020, 8:00 am

Never happened to me before that's wild, although on mobile I notice every few days I have to go through my 2fa process again to get back into my discord account. Not sure why exactly, hoping you get this all sorted out.

I know many people with more nitros sniped than me and never got banned, I don't think thats the reason.

Xen - July 31, 2020, 8:07 am

You have to be doing something pretty stupid to get banned on Discord tbh

I've only heard of bots getting banned for the obvious reason. Or people streaming illegal/against TOS shit most of the time though someone has to report you for them to notice it.

Discord bans anyone that has bot like activity on user accounts. Maybe they had a different bot or you were just unlucky. You aren't the first that I have seen getting banned for sniping discord nitro.

Cooligan - July 31, 2020, 8:25 am

Let this be a blessing and not a curse buuuut: I've had my Discord account since I originally made it back in very early 2016.

mine is coded by me and its the exact copy as how a user redeems nitro codes but yeah, probably this is the reason.

if they tell me this has been the issue ill just ask for a complete removal of nitros if they give me my account back and the promise to not do it ever again.

?ClavicusVile - July 31, 2020, 8:42 am

The response time of Discord right now is very slow, if they do reply, provide all the necessary detail. Hope your account gets recovered.

And promise to not do it every again.

You already did it, who would trust that anyways? You'll run out and do it all over again.

Marketplace - July 31, 2020, 9:20 am

That sucks! Never happened to me.

jaded7 - July 31, 2020, 9:58 am

Never had my account disabled, but I almost lost access by enabling 2FA and losing my phone. Luckily I found the backup codes written somewhere in a notebook stashed in my safe, lol

This is false. I've gotten back multiple discords that have gotten banned for one reason or another.

Good luck OP!

Limitado - July 31, 2020, 11:56 am

My discord was disable because I had tested a dm bot xD

siddy357 - August 1, 2020, 6:08 am

have had my account for years and never had any problem.

Silent Uprising - August 1, 2020, 6:38 am

I've gotten many discord accounts closed. Pretty easy to close them, but it depends on the rep that's reading your report. Read your email, who banned you? was it Clyde? Rath? Canute? Entei? Æ?

If it's one of those then it's probably rip cuz they just close people so fast. I send like a little evidence and then some sob story bs and they close ppl

Angela White - August 1, 2020, 6:39 am

Never heard of this, I've had Discord since basically the beginning and neither my friends or I have ever run into any issues with Discord or even had to contact their support.

I've never seen anyone's discord get disabled so what the heck did you do

Lyrlei - August 1, 2020, 6:40 am

Nope, I was sure my older account would get disabled for sure though, accidentally fucked up when I did a self-bot since it posted on all servers I was in.

Artisan - August 2, 2020, 3:02 am

Im not that much of an avoid discord user. Only use it for clients as I dont game that much anymore and this has not happened to me yet.. Were you into anything that mightve gotten your account flagged by discord?

Bacardi Cola Lime - August 2, 2020, 3:04 am

Damn, didn't know discord was that harsh with accounts. I know they use to purge servers easily but not accounts. Hope you get your account back mate.

LordHide - September 1, 2020, 6:52 pm

I got my account banned on Discord for sending out like a hundred invites to randoms in other servers in a short time span but I emailed them made it sound like the server owner gave me permission then reminded them that I spend \$300 a month in Nitro giveaways. They told me I violated their ToS but as a "One Time Gesture of Good Will" they reinstated my account

Nyx - September 2, 2020, 12:53 am

No, I have never had this happen.

? Soufian ? - September 2, 2020, 6:15 am

Happened to me, I sent them many tickets, they kept ignoring and saying they won't reinstate the account like this:

So after not giving up and telling them WHY I've been wrongfully banned, they went ahead and unbanned me:

The reason I got banned is because someone asked his community to mass-report me and my server.

So my server got deleted and I got banned. My server couldn't be reinstated, my account fortunately could.

It's very rare that you get unbanned.

TheBitcoinGuru - September 6, 2020, 1:39 pm

No ! I am interested . Following to see what's going on !

jecoylecoy - September 7, 2020, 12:13 am

I want to check my old discord account but I forgot my login credentials. I never used it for almost 2 years.
