Thread: [Favorite kind of breakfast?](#)

SIM-3587630 - August 1, 2020, 2:15 am

My favorite kind is definitely a "sweet" breakfast. A cup of coffee, a couple biscuits (chocolate ones preferred) and a fruit sometimes. What about you? Are you more of a salty or sweet breakfast kind? Or, you don't make breakfast at all?

Lorem Ipsum - August 1, 2020, 2:16 am

Coffee is a must. And preferably some fruit or just something small or simple.
Not really a sweet-lover at the morning, but hey, we are all different :-)

Lyralei - August 1, 2020, 2:21 am

A coffee, a cup of fried rice with garlic added with bacon and eggs.

Damn starting out with this kind of breakfast would be great, maybe isn't it a bit too caloric?

I dunno, it's always been like that for me, either no lunch or no dinner.

edit: but I do snack from time to time so I don't starve, I also drink alot of tea or caloric beverages such as energy drinks or sweet coffee.

Here's the thing, Sonic used to have a steak/egg/cheese/bacon/some kind of incredible sauce breakfast burrito. I'm going to tell you right now, that is the best kind of breakfast there is, hands down. I was a vegetarian for close to 3 years and I stopped because of those. I could eat like 12 of those things.

Parker - August 1, 2020, 3:35 am

I just want that simple eggs and bacon T_T

So basically Sonic is dangerous for vegetarian people??

A lot of the vegetarian alternatives taste really similar, so it never bothered me. Those burritos were something else though.
