Thread: [Elision's \[EASY \\$140+/DAY-LAZY NEWBIE SYSTEMv2.7\[VIDEO PROOF\]NEWBIE-FRIENDLY\] REVIEW](#)

AnctientWarrior - August 2, 2020, 12:50 am

All right here is my honest review guys, it is not sale trashing just my honest review after purchasing this method and trying to make it work for the past 4 days.

DELIVERY:

The delivery was fast and smooth, got the product in under 6 hours.

Method:

Initially, after listening to the method (it has an audiobook which says exactly what is written in the guide) it seems legit and it will give you some hope, only to lose it after.

Firstly the method isn't very explicative. Just tells you his life story and how he succeeded in making lots of money using this method. Gives you a list of 50 sites and that's it, have fun trying to find which site is which. Which I did, I had to read each site guidelines only to find out that the method ain't as easy as OP says it is.

Firstly, most of those sites don't work at all as the op says, it's like he did not even check the sites, he just went to google typed "how to *****" found the sites that appeared after his search, and just copy/pasted them into the guide. After spending 24 hours reading those site's guidelines I have found out in fact that you can't do what the OP says you can.

Firstly, OP has 2 strategies. The first one a little bit hard will earn you money without having to invest a cent. Op says you can get money daily from those sites if you apply his strategy but that's not true at all. It takes about 1 to 8 weeks (found sites that takes 12 weeks too) to get verified and accepted, only then you will get the money. So yeah you can't get a daily income out of this.

The 2nd strategy is an autopilot method that requires an investment. Now if we listen to the OP story, you can get this done in a few days using strategy #1 which doesn't work. However, I did invest about 80\$ in the autopilot, and guess what? It doesn't work either.

The way the OP tells his story/method sounds amazing. But it's a big beautiful lie.

SUPPORT:

I contacted him about 4 times on hackforums, he replied after 2 days telling me to add him on discord which I did. Had to wait another day, for him to accept the invitation. Another day of waiting and he did not reply to this day.

4 days have passed until now and no answer from him. Therefore non-existent support.

Final Thoughts:

I regret buying this method. I mean I know 20\$ ain't much but keep in mind I have also invested 80\$ for his autopilot method which is lost but that's my fault because I was beguiled by the method. Let's we don't talk about the wasted time which I regret way more than the money that I have lost.

OP please don't feel offended about this, as I said it's just my honest review, not a sale trashing or anything. That's the value your method has, zero.

Could put more work in the guide, make it an actual guide, and give the support you have promised. Could have raised the price and stick to your promises, had no problem paying 40\$ if this actually would have worked.

Also, before buying the method I have read every comment on this thread, and only 5 buyers had negative things to say (now 6 including me). Everyone just bought it and said nothing, that's pretty horrible, especially those that are giving this a positive review, are they paid or what lol.

Honestly, Ainctwarrior.

Hey mate,

I've already refunded your money on Paypal since I couldn't provide support. I told you the reason for the delay and I do not wish to post it here. I'm sorry you're not happy with my method.

Take care,
Elision

Well on top of that, it doesn't seem to be a "lazy method" AT ALL from what you described, so he lies about the title that's already a red flag. But I suppose everyone sugar coats their idea to boost their sales so it ain't a biggie. However, I wouldn't buy 20\$ methods as they are poorly made.

I mean let's be serious it's 20\$... what do you expect? A well-made guide with graphics explained step by step, pictures and all?

If 20\$ would get you money then there would be no ppl around looking for money making methods anymore lol and everyone would live good.

Totally agree with OP. Lesson learned.

Sadly I also agree 100% with this,, I feel it is also extremely misleading to say this is a "Lazy" way to make money, it's far from it.

This market is also so saturated that I feel the whole sales copy in the thread is very deceptive, it is slightly infuriating just to see it now.

As previously posted here, Lesson learned.
