Today I'm here to share a project I'm working on and looking for feed back, ideas, or any tips you may have to offer me! The goal of this project is simply to learn more about mostly SEO and affiliate marketing, including learning how to utilizing social media and maximize and target my traffic.

Hmmm well to be honest feel like everything is just popping out at you man. Dont know what to look at. Everything grabs my attention.

I do like the recent post wheel as well as a few posts but i would reccomend trying to make the images a bit smaller in a way to be honest.

But over all it is nice man kind of like how you have a mini shop link that a new site. hopefully you add in possible other things than masks or at least more about product instead of product news but it is very nice. Kind of felt mis lead about the shop that it redirects you to amazon.

But i do like the work man, if anything i do reccomend having possible a dark theme impleteneted, Yes very bright colors it looks clean and neat.

Overall its a nice site keep up the good work man

Overall its pretty good, but i do need to agree with the other user above. There is too many things close together to focus on at once. I feel like everything is "stretched" & too big for what it needs to be. Maybe add some more padding/margin between sections & try to separate the different sections a little bit better.

I would personally have the site in a container so its not fullscreen with some empty space each side, i think that would suit it a little better. But other than that, it seems okay, don't see why people wouldn't like it. Good job.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Did you use magazine template? My suggestion is to change the template or theme with borders, so the looks will be cleaner and structured.
