pharaohsneaks - August 5, 2020, 10:53 am

Hi there, this user <https://hackforums.net/member.php?action=profile&uid=685542> has allegedly DOX'd me, I was wondering if this was allowed? It's over a dispute in between money because he thinks I owe him over a proxy sell which the buyer confirmed to come through me <https://ibb.co/bb4HWmm>. The sale didn't even occur on HackForums since the item in question can't be sold on HF.

For more info : A user PM'd me about a product and added my Discord, later that day DOOM made a post, then the user bought the product, with 0 relevance to DOOM.

I understand the sale was not on HF but are these threats allowed?

Some proof of him doxxing etc.

Yeah if you want to know the truth that person vouching for him is his buddy in on the scam, message me for all details about how this guy operates. hes just butthurt he got exposed.

Thinking this will rattle my britches? Takes more than this pitiful Community alert showing you ain't paying, also complaining about offsite deals?

Yeah this guy an absolute joker, he thinks he's smart and all but his amateur AWS scam won't go much further. He dug himself a hole and now he can suffer the consequences.

Yall want some proof on a scammer then just hit me up, way too lazy to reply to this poorly created alert framing me like OJ ahhhhh.....I promise the glove didn't fit man hahahhah

(The fine print is he asks you to resell, when the customer comes he claims he already had a profile up and they came to him directly, even though the customer had been messaging you directly, he then wont pay the fee hes has told because he got the deal) Basically hes looking for people to bring him 1 customer on a AWS created fraudulently, then he takes the cash for himself and claims is was him who got the sale.

This guy couldn't sell a posicle to a man millionaire lost in the Sahara Wantt to know a lot more about his operations then message me. Fake vouches, pretending the AWS are legit, fase sales. This guys nuts, i can bet he does not even have any AWS, i seen nothing.....

Proof the deal was fine : <https://gyazo.com/863c867c83ceeb1f8f49e7d4149b7b40>

I am willing to show proof he contacted me before you posted but as we both know it was on another forum and that would be useless here? I think you should take your meaningless threats elsewhere as well as accusations backed with 0 proof, in what way am I a scammer? The deal happened perfectly with 0 issues inbetween myself and the other user, I just didn't pay you for your 'proxy selling' because you didn't bring the customer in, and you even acknowledged that in Discord but still wanted 30% of the sale? You're crazy.

Yeah the deal went fine, idiot just didn't pay me for my advertising, I've got my own screenshots from the same customer, he was dealing with us both during the deal, this moron thinks that he got the customer, miraculously after a high ranking member posted an advert for him.

Do i need to continue with this fool? I think it's pretty damn obvious we are dealing with a jew who doesn't pay his resellers, his crappy ad had no views, the guy found my add and then got this morons discord after finding my ad, and yes i got the screenshots for proof just message me.

I will show you everything. This child is actually putting up some hilarious evidence. You're digging

the hole even deeper.

Elsewhere, you posted this thread mate? And yeah the deal went smooth and now a man has a fraudulent AWS that will last 3 days, and you didn't pay your salesman. That's all these thread shows.

And no the community needs to be warned about any new members with AWS sales. If you scamming on multis after you have completed 1 scam. You are just upset i know who you are, but Nah, I won't stop, the community really needs to know this guy will use your name and then run.

So which is it? the deal went fine or he's my 'buddy' i'm on the scam? The Middleman was the OWNER of said website, you're the one crying over \$100, i would have absolutely 0 issue paying you if you had done your job, the USER WHO BOUGHT HIMSELF SAID IT WASNT THROUGH YOU, you know you're in the wrong and you're trying to paint me out as a scammer and you think you can get away with it because i'm low rep/not upgraded. As well as this you 'Doxxed' me, how about you take your own advice and deal with this like a man?

You have no clue who i am, i'm not even mentioning the product because it's not allowed to be sold here and i never did sell it here, and i won't sell it here, you were more than happy to sell the product, why you changed your mind and calling it shitty now? i'll tell you why, because it fits your

agenda, you were VERY happy selling it and you know full well the product is legit, but the legitimacy of my product isn't what we're talking about.
