Thread: [Signature Market Changes](#)

Xerotic - August 5, 2020, 12:48 pm

Two years ago we brought the [Signature Market](#) to HF. A great way to automate signature advertising with our own internal reward point system. A revolutionary feature. See the original release thread here: <https://hackforums.net/showthread.php?tid=5864263>

Today we bring you major improvements to the system. First, we add two new sortable columns to the signature page listing. You can now view and sort by the total number of orders a member has sold and you can also sort by the number of posts per day (past month) that a member makes.

Check it out with signature market link in the first paragraph of this thread. This has been a long desired feature and I am happy to introduce it to HF.

Another happy change is that inactive/non-selling signatures will be removed from listing. Your signature didn't sell this week? We're removing it from view. You'll need to figure out why you aren't selling and add it back. Make more posts. Lower your price. Something, but no longer will people sit on the sigmarket page for months and months at a time.

We have also added a 5% Stanley Byte fee for the signature market. This fee is reflected at time of purchase. If you as a seller set your signature for 100 Bytes, the buyer will pay 100 Bytes, you will receive 95 and Stanley will receive 5. To prepare members for this change we have removed all signatures that are listed as "for sale" (existing orders continue as normal). If you wish to sell your signature space then you can do so now.

If that weren't enough... how about the biggest change for the signature market? It can be automated now. <https://hackforums.net/showthread.php?tid=6083782>

We have added the Signature Market to HF APIv2. This means that you can view, order, and update signature market settings programmatically using the API. I'm sure we'll see some members create new cool things using the Sig Market API.

Thanks and enjoy.

Demize - August 5, 2020, 12:50 pm

Wow, that seemed fast I feel like someone just suggested the post per month in there the other day, great change and now I can sell my space and people will see how active I am ?

Zexi - August 5, 2020, 12:50 pm

Great addition Xero. Thanks for all your hard work!

Semmenial - August 5, 2020, 12:53 pm

:OOOOOO

SIG MARKET ON API!

Gonna be sick to see what members, or maybe even I, can do with this.

Bacardi Cola Lime - August 5, 2020, 12:56 pm

Great change! This will award active users while making for a greater advertising opportunity for

sellers.

Vibe - August 5, 2020, 12:59 pm

This is very helpful I buy a lot of signatures thanks sir, for all your hard work

123 - August 5, 2020, 12:59 pm

The suggestion which I made along with many other users in past years. Finally it's implemented.

Good work Xero. HF is getting better every single day !!

\$neaky - August 5, 2020, 12:59 pm

Thank you so much for this implementation!

Demize - August 5, 2020, 1:13 pm

(Aug 5, 2020 01:08 PM)Pyro Wrote: [\[CITE\]](#) It has been suggested numerous times Ah I just saw someone yesterday talking about it so. I was gonna say that was quick turn around either way it's a good feature

MarvinMalware - August 5, 2020, 1:17 pm

Nice additions to this feature, I think I'll try and take advantage of it as I have yet to try it out.

SIM-3587630 - August 5, 2020, 1:21 pm

Great changes, I love that inactive ones will get removed to make space for others. Thanks.

Xerotic - August 5, 2020, 1:21 pm

(Aug 5, 2020 01:11 PM)Gambler Wrote: [\[CITE\]](#) it was suggested the day of release. kappa Yup. <https://hackforums.net/showthread.php?tid=5864263&pid=57371335#pid57371335>

Suggested day one and every few months thereafter.

Lavish Living - August 5, 2020, 1:23 pm

Suggested day one and every few months thereafter.
yeah it makes sense tho why it wasn't added. It probably does use a lot of resources, but purging inactive ones is a nice addition.

Btw - you miss me? hehehe ?

Deany - August 5, 2020, 1:28 pm

Awesome changes

Seems more organized

Prox - August 5, 2020, 2:16 pm

The sorting changes are a gamechanger, definitely makes purchasing signatures less of a hassle, and more of an investment.

Appreciate the hard work, Xero!

Fortunate - August 5, 2020, 2:54 pm

This is great. Thank you Xerotic for pushing updates like these out, they were heavily requested.

What can we if your signature has been bought by a closed member? Do we have to wait until the signature time wears off?

Xerotic - August 5, 2020, 2:56 pm

Yeah, you already got the Bytes for the time. But if they are presenting something that violates site policy in some way you can always reach out to Staff and they can blank it out for the remaining duration.

Fortunate - August 5, 2020, 3:01 pm

Yeah, but that sounds fair. There was a closed user that abused the signature space before getting closed, but Staff blanked it out. Thanks for clarifying.

B FOR BADASS - August 5, 2020, 3:21 pm

Looks good. Nice that new things are coming up...

ETH - August 5, 2020, 9:47 pm

Great feature and it is really useful for people to buy more signatures !

vyactor - August 5, 2020, 11:21 pm

I guess Bytes are to be more valuable in the upcoming days due to this kind of update. It's really great to see how Xerotic is upgrading HF to another level. Great update as always!

Makaveli The Don - August 5, 2020, 11:34 pm

Useful update. God, it seems like yesterday when the signature market dropped. Brings me back to those sweet summer days of 2018.

Eagle 95 - August 6, 2020, 12:55 am

Awesome addition man, good job :D

phunted - August 6, 2020, 1:00 am

This is amazing, lots of potential plans ahead.

Appreciate the effort mate.

Michael - August 6, 2020, 1:02 am

Nice improvements Xerotic.

I reimplemented my signature space as well.

Omniscient - August 6, 2020, 12:10 pm

It's been suggested that we sell Stanley's signature. It's likely we will do it.

Probably about 10k Bytes per day. We'd not have it on the post bumps but realize sigs show in PMs and Stanley sends to every new member and about 1000 PM's per day. Not to mention his profile views and any other posts like DCI. It would be huge exposure.

May implement this soon.

Zeus - August 6, 2020, 1:01 pm

This sounds like a good idea.

Can't wait to see it come and test it out!

eXceptional - August 6, 2020, 1:26 pm

Those egg PM's were disabled though. Would be a lot cooler if those come back.

Monati Melano - August 6, 2020, 1:39 pm

Very nice i didn't like the old signature market but this will definitely be more useful and more organised now.

Xerotic - August 6, 2020, 1:40 pm

BTW also made it so that the Posts Per Day (PPD) is the default sort now.

SIM-3587630 - August 6, 2020, 1:54 pm

(Aug 6, 2020 01:40 PM)Xerotic Wrote: [\[CITE\]](#) BTW also made it so that the Posts Per Day (PPD) is the default sort now.

Is it just me, or PPD stays at how many you have when you actually post it for sale? Like when I posted it I had 23.something, went up to 24.something and I had to re-put it for sale to update my PPD in the list. I'm only talking about the general list, because if you click on more info of a signature it shows the updated PPD value

Xerotic - August 6, 2020, 2:00 pm

(Aug 6, 2020 01:54 PM)Kendrick Wrote: [\[CITE\]](#) Is it just me, or PPD stays at how many you have when you actually post it for sale? That is correct. We use the PPD from the time you added the signature.

Why though? They were kind of annoying to be honest, the current one that pops up in alerts is better imo.

(Aug 6, 2020 01:40 PM)Xerotic Wrote: [\[CITE\]](#) BTW also made it so that the Posts Per Day (PPD) is the default sort now.

Thank you, this is great.

Stanley PM's are needed here xD

<https://i.imgur.com/6hn9BX1.png>

Artisan - August 8, 2020, 3:31 pm

Thanks a lot for this addition. This will make the siggy market lively for sure plus more people using bytes for it = more value for bytes.

RIP Juice WRLD - August 8, 2020, 3:43 pm

Neat!

How about adding Price Per Post?
