Hi Everyone!

Stumbled upon this place doing some digging.

Looking forward to learning more and being active. I plan on using the resources.

Wish i would of found this place years ago.

Im not too experienced in hacking and hope to expand on my knowledge

Any recommendations on where to post a "request for service"? I don't wanna accidentally post in the wrong section. Specifically im looking to gain info on social media accounts and possibly a phone (just the data i.e. videos\call logs)

Hi Recrobyte, welcome to HackForums. As others have said, be sure to have a peek at the [Help Docs](#) to check the rules and avoid any rulebreaking! Enjoy your stay, see you around.

post request for service here: [Buyers Bay](#)

Welcome aboard!

Don't forget to read the rules, but it is a nice community that we have going on and it's always good to have more people joining this community

Welcome to Hack Forums, I recommend reading the rules and talking to people in the lounge to start out with.

Welcome to Hackforums Recro. Hit the Hack section to find stuff that interests you and always remember to deal with contracts to avoid getting scammed.
