Don't know anyone that does that. Best bet would be to hire a girl on fiverr.com

You guys call yourself ewhores? SE your way to the pics for free.

Find 3 girls on twitter or Instagram and tell them that you want to buy feet pics from them. But to make sure they are real, you want proof. The proof is the hand signs. By using 3 girls with similar looks, you can split up the pics so they aren't suspicious. They're more willing to do it because they would think selling feet pics is easier than selling nudes.

I mean at the end of the day, this is solid advice lol.

It might take a bit longer than just going out and purchasing a pre-made pack from a seller, but this would still definitely work.

How much are you offering?

Babygirl1122 - August 11, 2020, 3:41 am

If you don't want it to show face why not just ask someone close to you that you know. It's just hands

I do this myself, this is how you actually make packs. It's very worth it in the end, and it's "most updated"
