Ok I need to understand what are the benefits because the crew name and userbar on posts is all I see as benefits.

Well if you want your own userbar, that is one benefit and if you want to play hackuman you will be able to with up to 9 other people in the crew.

Oh it's all about the hakuman game benefit and the userbar cool.

I'll think about it and let you know.

The HUM game is the main purpose for crews. There's no benefit for you if you aren't interested in the game apart from the things you listed.

edit; it's fun though, should get into it.

\$300 is fair considering the price of bytes increased a little, i'm happy for the buyer to pay 5k and i pay 5k for the transfer fee.

I'd like to buy this please - contract initiated.

Am I allowed to use the group for other purposes? I don't play HUM.

I just want to start a design group.

This is not a group. You don't have to use it for HUM.

You will not get a sub forum. You can use it for custom UB.

I don't really care about the sub forum.

I'm interested in the idea of forming a small group of people with an interest in design and the custom UB.

Then this is great for you ?

Edit:

You will have to leave your current crew.
