Small but simple tut for youtube. (Useful For Beginners)

Problem: You want to watch a vid but youtube classifies you as a minority and doesn't allow you to watch your favourite Ke\$ha video.

-

? The Fix:

Rework the URL.

-

A Sample URL: (Some Hardstyle mix with soft porn as pic)

http://www.youtube.com/watch?v=gBP_0FIRY94

Yootoob would give you some age verification message from that.

We change this to ?

http://www.youtube.com/v/gBP_0FIRY94

And Kabam it works!

Code http://www.youtube.com/v/ID_HERE? Is your template.

Only problem is, is that it becomes fullscreen and I'm not sure if there's a workaround for that. Not 100% sure but I think this doesn't work on "non-embedded" videos either.

Have fun and thanks for reading ?

You can also put nsfw in front of youtube so it would be <https://www.nsfwyoutube.com/blahblahfuck>
