Thread: [\[FREE\] Slave trading service! \[TRADE YOUR SLAVES HERE FOR MORE SLAVES\]](#)

Freak_OG - August 10, 2020, 1:29 am

Just came up with a great idea for the community. Giving away 2 free slaves to whoever can give me 2 slaves, I give them 2 slaves == 4 slaves

This service will have a higher capacity as people trade their slaves with me, and you will be updated when there are more slaves available to trade!

there are no rules to this service. :D

Watch out for botkill though

Good Job but it would be good for community only if you give that 2 bots without taking any.
But this also works as it also fulfill your needs.

So I found two people on a website who I tricked into installing a rat. It has a reverse rdp so I can share them with you.
