Thread: [Have you signed up for an HF XMPP account ?](#)

Azythum - August 10, 2020, 10:29 am

Why omni says the service is deprecated <https://hackforums.net/hfim.php> ?

Nima304 - August 10, 2020, 10:30 am

Honestly, I dunno what XMPP even is, and I doubt I need an account for it.

Azythum - August 10, 2020, 10:32 am

I think it's an open source protocol to communicate or something like that.

Signal, Discord, and regular email work for me.

Azythum - August 10, 2020, 10:37 am

Maybe as it's open source you can participate to build the service, i don't know exactly.

I looked it up, XMPP is Jabber, it got renamed at some point. It's a late 90s, early 00s instant messaging protocol. Shit, I might as well use MSN Messenger, at least more of my friends would be likely to pick it up than this.

Azythum - August 10, 2020, 10:48 am

(Aug 10, 2020 10:42 AM)Doubt Wrote: [\[CITE\]](#) Oh I remember this, never used it personally because I had many other means of contact/messaging but used to see it attached to people's profile pages.

Yeah maybe it makes no sense to have many means of messaging.

Exalted - August 10, 2020, 11:22 am

I do use XMPP, but not Hacker.im, it's a great protocol for private conversations with OMEMO/OTR.

Dopamine - August 10, 2020, 11:27 am

Never heard about this Pokemon.

Seriously, I don't use this haha

Azythum - August 10, 2020, 11:46 am

In France i heard about a guy who code a decentralized social network based on xmpp et with an http client, it's called movim. Maybe i will try to set up this thing one day.

Artisan - August 10, 2020, 6:31 pm

Im not into anything that would require communication via xmpp so I havent signed up to HF XMPP yet. I think I have an account on a different one but havent been on it in months.

Lyrarei - August 10, 2020, 6:50 pm

I think I have years ago, but I rarely do contacts that require security, so I barely got to use it.

Parker - August 10, 2020, 6:51 pm

I mostly likely not to because I just new discord overall

Xerotic - August 10, 2020, 7:13 pm

Hmm... that error message is slightly misleading for newer users. HF had a previous XMPP service under a different domain. It was discontinued and in it's place is hacker.im. So that error message is saying the old service is gone, but hacker.im exists to be used instead.

jecoylecocoy - August 10, 2020, 7:15 pm

I did not signed up for that and have no idea it exist. :(

Gary Clark Jr. - August 10, 2020, 7:17 pm

Never heard about this Hackuman.

siddy357 - August 10, 2020, 7:23 pm

i use xmpp and it is not the hf xmpp.

luke - August 10, 2020, 8:38 pm

hacker.im still exists for this purpose.

Pizz - August 10, 2020, 8:42 pm

No I haven't, I'm not even sure what XMPP is...

Exalted - August 11, 2020, 2:01 am

I've just read up on Movim, thanks for telling me about it, quite interesting.

Whats OMEMO\OTR?

also, never used XMPP , not sure why i need another means of communication for now.
I am happy with what i got lol

Drug Problems - August 11, 2020, 3:43 am

Damn its crazy watching XMPP fizzle out of the community slowly. I remember thats literally how

everyone used to talk, if you didn't have one no one would message you back lmao. Now no one even knows what it is or why its useful. Pidgin OG checkin in

Exalted - August 11, 2020, 11:25 am

I am happy with what i got lol

[OMEMO](#) is an add-on to [XMPP/Jabber](#) for end-to-end encryption, and [OTR \(Off-the-Record Messaging\)](#) is a crypto protocol for encrypted communications.

Bacardi Cola Lime - August 11, 2020, 11:27 am

I have actually. Used it for a bit as well.

Injun Joe - August 11, 2020, 11:50 am

No, I have not signed up for an HF XMPP account, I don't even know what it is.

Silent hill - August 11, 2020, 1:00 pm

i didn't yet but i hope soon.

i'm signed up using exploit.in one
