Thread: [Notification System No Longer Notifies You When Quoted](#)

Gary Clark Jr. - August 11, 2020, 10:59 am

No idea if other members are running into this same issue so I figured I'd pop in a little support thread to see what's going on.

Basically, I haven't been getting my quote notifications in the past day or so. I have all notifications checked off in my settings, unchecked and rechecked them and the issue still occurs. Every other notification seems to be fine, such as being mentioned or getting a HUM egg, or getting a QL on a post.

Anyone else in the same boat?

Gold one would be quite nice. ?

I've been noticing this for a day or so, I just wasn't sure if I was crazy or not and ignored it. I wonder how many other people are having this issue?

It seems to only be an issue for unupgraded users quoting me (so far).

This is something that I am aware of and in the process of fixing.
