Thread: [Forum Subscription Changes](#)

Xerotic - August 11, 2020, 5:48 pm

Reference: <https://hackforums.net/showthread.php?tid=6098696>

A couple weeks ago we added the ability to receive on-site/push notifications when you are subscribed to a subforum. However, if you did this then you also received the emails for that subforum subscription. Today we give you the option to choose between notification types.

You can be notified of new subforum threads via...

On-site/Push

Email

Private Message

It's easy to do. Check out my reference thread linked above for the general instructions and see below for what's changed.

Now, when you click on the subscription icon you will receive this popup:

You can easily update your forum subscription setting right there. Choose whether to change your settings, remove it, or do nothing.

Since we didn't want to be presumptuous when deciding which should be the default notification type for existing forum subscriptions, we have reset them all. If you want to be subscribed to a forum you should go subscribe to now. All forum subscriptions created before this thread's creation have been cleared.

Thank you and enjoy.

(Aug 11, 2020 05:49 PM)? Soufian ? Wrote: [\[CITE\]](#) Sick update! I'll finally get rid of PM notifications as I only use the push notifications and email.

Not entirely sure how that related to this thread, but good for you. ?

jecoylecroy - August 11, 2020, 5:51 pm

Nice Xerotic, I think this might solve the problems I encountered earlier :).

Oops, I've misread the thread. Thought it was about something else.

vyactor - August 11, 2020, 5:52 pm

I finally can get rid of email notifications. On-site notification could work well for me.

Thank you for this useful update, Xerotic.

Game - August 11, 2020, 6:24 pm

Thank you for this, I wondered why I received over 100 emails for every new post in The Lounge.

Thank you for this useful update, Xerotic.
Enable Push. It's the best.

HERMES - August 11, 2020, 7:44 pm

So basically anytime a new thread, is posted you get a notification?

Or is it for every reply, everything? A little lost on what all you get notified for.

vyactor - August 11, 2020, 7:46 pm

AFAIK, you get the notification for each thread created in that section. I doubt it notifies you for every reply.

Corleone™ - August 11, 2020, 8:19 pm

I missed that thread too. I was also looking for push notification option and there looks to be the solution.

Thanks, Xerotic.

phunted - August 11, 2020, 8:23 pm

Push notifications are bloody awesome, so thank you plenty for this mate!

Please review the reference thread listed at the start of the OP here. This thread serves as an improvement over that notification type.

MarvinMalware - August 11, 2020, 9:50 pm

Thank you for this, after your initial post I subscribed to the Lounge only to have my email overtaken so I will definitely be making use of this.

Dorrance - August 12, 2020, 4:18 am

Ooo That's some nice little features

123 - August 12, 2020, 4:24 am

Yeah. I noticed this update earlier today. The icon was displayed alongside "Mark this Forum as Read" . Very cool update Xero. Thanks for doing this !!

eXceptional - August 12, 2020, 7:14 am

Worth. These notifications make me more active now.

Thank you for giving us with all these upgraded features.

Bacardi Cola Lime - *August 12, 2020, 7:18 am*

Push notifications for subforums is a great feature! Thanks!

MightyOne - *August 13, 2020, 1:38 am*

This is actually a great improvement! so nice to see new features keeps added to the forums.
It is useful for me on some of the lower-activity forums ^^

Thanks!!
