This is looking exciting - how is this different than any RAT, just with this you can't see desktop and stuff?

You planning add year or lifetime plan? Thanks

Political - August 13, 2020, 1:42 pm

What's the point of this? I might buy it.

Can we see a scan of the downloader? So we know it's actually FUD

I note the six month license has 'unlimited uses' listed as a feature. Does this mean the one month license has a limited amount of uses?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
