Can you do UI designs for HVAC related projects/schematics

It would depend on what I'm given to work with as my knowledge on anything HVAC related is limited, but in most cases my design knowledge transcends niche content. If you'd like to discuss this further, feel free to shoot me a PM.

Just noticed this now.

It can really depend on what's needed as the amount of content can vary greatly. It'd be better to give summarized information of what you're looking for so I can give an accurate quote.

But if I had to estimate anywhere from \$140 to \$280

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
