Thread: [Best way to brute force rdp?](#)

bob45 - August 13, 2020, 5:01 pm

Like, what are the best countries to target, and what are the best tools?

SOS777 - August 13, 2020, 9:00 pm

Yeah i still remember my golden era of hacking RDPs ... I think at that time that was some russian tools mainly for cracking. Nowadays, I have no clue. Maybe we could discuss what new ideas/strategies you ever heard of those days. Maybe that will shake my memory a little . Contact me if you are interested.

Stop digging grave its over 2 years

lynakouba - February 21, 2022, 10:51 am

hi
best way is to set username to "Administrator" (if you have no idea of it)
and for the password generate a dictionnary or use existing one
