Thread: [Convo Jackpot Bytes Game](#)

Xerotic - August 14, 2020, 11:09 am

Today we bring a new Bytes game to the [HF Convo](#) room.

Say hello to /jackpot

Jackpot is a progressive Bytes game. That means as more people play, the potential jackpot gets greater and greater. If you are the lucky winner to hit the jackpot then you get the Bytes!

Playing is very simple. You simply use the following command:

Code /jackpot play

Each play costs 10 Bytes. Want to play more than one game at a time? Easy.

Code /jackpot play 50

That will play 50 games (remember, 10 Bytes per game).

Interested in knowing how your 10 Bytes are being split up?

8.9 Bytes go to the current pot

1 Byte goes toward the next pot (this ensures that the next pot starts with something rather than 0)

0.1 Bytes are burned

We hope you like this new convo room Bytes game.

Enjoy!

Prox - August 14, 2020, 11:11 am

Pretty fun game, I recommend most people to just try and do 10 bytes here or there to test their lucky :)

Also, play with friends!

crown - August 14, 2020, 11:12 am

Good stuff Xero, love the new updates to convo! cant wait to play!

Artisan - August 14, 2020, 11:15 am

Another great feature. I love it when bytes get more utility on them.

RIP Juice WRLD - August 14, 2020, 11:19 am

We literally talked about this in /convo.php an hour ago.

This is some serious coding skill & efficiency.

Lor?d - August 14, 2020, 11:32 am

Already burnt out my bytes playing this. Rip

Zero - August 14, 2020, 11:33 am

Thank you for helping my gambling addiction <33333

01001 - August 14, 2020, 11:33 am

Sounds like a great addon to the community. I'll try it right away!

Demize - August 14, 2020, 11:38 am

Just what I needed another game

SIM-1729678 - August 14, 2020, 11:39 am

Very nice game, very addictive, I'm out, Imfao.

Fortunate - August 14, 2020, 12:17 pm

(Aug 14, 2020 11:32 AM)James Wrote: [\[CITE\]](#) Very cool addition Xero, thanks for bringing more convo games

edit: I JUST WON 20K BYTES HOLY SHIT

Damn, thats awesome. Congrats!

jecoylecoy - August 14, 2020, 12:26 pm

Nice game, its really jackpot when you win.

Crypt - August 14, 2020, 12:45 pm

up 12k so far :o.

Really cool addition.

123 - August 14, 2020, 12:48 pm

Holy fuck. Thats so good. Thanks Xero for these games.

Makaveli The Don - August 14, 2020, 12:56 pm

Ah yes, another one of my ideas made it. I'm such a creative genius. Haha

Very well coded indeed. Glad you guys enjoy it! :D

Chat is becoming more and more entertaining. Thx Xerotic!

Herbert - August 14, 2020, 1:25 pm

Great game and well implemented!

Bacardi Cola Lime - August 14, 2020, 1:33 pm

Oof another great way to spend bytes. Let's try our luck.

Crypt - August 14, 2020, 1:52 pm

Instead of seeing the current pot after someone puts money in, what if you add something at the bottom right that has the current pot? Would be nicer I think.

iNviZ - August 14, 2020, 2:56 pm

Awesome feature, I just did my first one and won over 500 bytes.

Nachfolger - August 14, 2020, 5:18 pm

(Aug 14, 2020 01:52 PM)Crypt Wrote: [\[CITE\]](#) Instead of seeing the current pot after someone puts money in, what if you add something at the bottom right that has the current pot? Would be nicer I think. Horrific idea. The chat adds (/flip, /rain, /jackpot) are meant to be optional portions of the HF chat. Forcing members to look at a running pot is a bad idea. Instead, allow a /jackpot pot command so you can see the current pot.

thanks for coming to my ted talk.

Dopamine - August 15, 2020, 3:44 am

Thanks for the add on. Will probably try this feature soon and lose all my bytes again and again.

Yanix - August 15, 2020, 4:11 am

This is great...I might try it out :D

Thanks for this pretty cool game.

LoremIpsum - August 15, 2020, 4:24 am

As a fan of gambling with Bytes, Crypto and Cash.. I can't say I won't try this!

Today isn't the day for that, but this new feature is an amazing idea. Let's see who will be able to win the Jackpot.

Cooligan - August 15, 2020, 4:40 am

Well damn this is very cool to see, didn't expect it either to be honest but definitely looks like it's going to be fun.

So far I've contributed 10 whole Bytes to the /jackpot, knowing me it'll be closer to 1k by the end of the day in attempts of trying to win it.

I'm gonna have to try and remember to make a celebration thread for the first member to win the max 20k /jackpot. ?

How many did you run in a row in total lol?

I think I've only done two so far.

Happeh - August 15, 2020, 8:18 am

Appreciate the new addition sir. Cant wait to see many other ways bytes games can be implemented.

MightyOne - August 16, 2020, 1:49 pm

Cool! ill be going to try it out now on the conversation page!

Btw, the jackpot is what? a number in 1k range? any clue or hint as to what to expect in terms of odds etc?
