Thread: [Graphic and Web Design Resources](#)

devlightz - August 14, 2020, 5:32 pm

Came across a youtube video by that Traversy Media guy. He had created a huge list of awesome resources for web developers and designers. There are bunch a categories with a lot of resources in each category. Mostly online tools and resources. I have already found a few really cool sites that I never knew existed. Heres the github page if anybody wants to check it out: [Github Repository](#)

Credit for this list goes to Traversy Media on youtube I didn't do anything other than link it. Also, if you want to add something to the list that isn't already on there you can make a pull request.

Lol awesome man. He has some very good content on his channel. If anybody hasn't heard of Traversy Media on youtube please go check out his channel; I have learned a lot of good stuff from his videos.

All credit for this list goes to him and the other contributors like you that have added to it. Thank you.

No problem man, when my PR was merged 3 months ago since then there has now been so many resources added. I'd say it is the best resource list out.
