08/15/19 - I bought Gamblers group from Aficionado.

Many more years to come! We're sitting solid at 55 lifetime Gamblers. I wouldn't be surprised if we hit 150 by August 2021.

Big things coming 2021 for Gamblers group! ??

vyactor - August 15, 2020, 8:13 pm

I hope to never see Gamblers getting closed for any kind of reason.
Long live Gamblers!

Sorta, I officially rebranded about a week into September. Then tried a few months of monthly fees / monthly poker tournies... they only got around 5-15 ppl and it was a hassle kicking ppl out of the group who didn't pay their monthly fees. So in December I switched to lifetime buyins.

But yeah, I officially bought the group from Aficionado a year ago =p

Worth investing my time in making such beautiful 55 friends. The best part about the group is we don't tolerate snitchers and scammers inside.

Said no one ever. I still don't see what's the bragging about having buy-ins. Having loyal members in your group who have been there since the group was formed, that's something to brag about. Other that, this is just making back the money you spent as an investment when buying the group.

But none the less. kudos to you for keeping the group running for so long and not selling even though you might have wanted to.

What's wrong with Masterminds... hmm

but yeah, too many snitches in Gamblers. I got an iphone 11 pro in april and someone in the group chat tried blacklisting it (I posted a pic of the imei lol).

tons of other snitch shit has happened too. Some multi in the group started leaking my full dox all over hf and discord servers lol.

Too much drama zzz

Dreamers will be drama free. It's nice cuz all 3 owners have the same stake in it, every invite will be voted on etc.

Yeah well good luck with your new group ?? And I'm just saying the exclusive groups always seem to eventually sell buy ins/subforums. But I wish you well. Definitely can't sell buy ins to everyone if you don't want snitches or drama, but I mean that's mostly all hackforums is now a days

6.66k bits, or .00666 btc. I would wait until btc crashes a little, it's pretty high atm (\$82 for lifetime buyin is still a nice price).
