yesterday i made 50,000 bytes from my last spin before shutting down my laptop.

few minutes ago, i saw this post :

i didn't know that we can buy a scratch card using bytes.

so i head over scratch card page and i bought 1 card using 1,000 bytes to see how this game work, and i ended up winning 25,000 bytes in my first card !!!!!

25,000 ?ytes 0.5% chance

Guess there are only few people on forum like LoremIpsum and you who's a lot luckier than anyone else. There is literally very less chance of geetting those bytes.

I hope I could get those amount of bytes in future. I gave it a shot like 2 or 3 times only as of now.

Silent hill - August 17, 2020, 7:51 am

i have the most bytes on hackforums right now.

Really you're luckiest person !

I'm really bad on these luck things

Lorem Ipsum - August 18, 2020, 6:34 am

Congratulations on your luck-streak!

Go make use of it, before it's too late. As I won 3x the Slots Jackpot in 14 days + some BTC from a Casino.

You are lucky with Slots, Scratch cards and Black Jack. That's some real luck right there.

It's still a risk. Gambling is and will always be a risk.
I think you have a great chance when following some Sports expert or support thread, but I can't guarantee any profits.
