the price is to high honestyOur bot comments first on posts unlike the one you provided. Also, it's using selenium, which will get your account banned in a few minutes. Please take a look at the features I've added to this post if you'd like to know more.

The price is high because this is the only bot that works well at the moment. Real IMers know the potential of this ?

A few years ago, there was a guy who grew his account to over 100K followers within a matter of months using the exact method your tool automates. A highly valuable tool - for the right user of course. GLWS!

All you need is a bit of creativity and a couple of IG accounts. ?

I'll be online until midnight, Don't hesitate to PM me if you have any questions.
