Will our store get shutdown? Is there any downside to buying these through you?

I do not see any downside to buying these from me. There's so many people that use the same theme and since I bought them from the actual shopify website.

I use them on my own store with no repercussions whatsoever. They are templates so I don't see how there would ever be anything of that sort since it's a public buy. I am just selling it cheaper.

You shouldn't have any issue whatsoever.

No problem! Nah where you have upload theme in shopify menu, you simply upload the rar and it does all the work for you :) I never ran into an authentication mechanic for the site.

I'd like a Vouch Copy of the responsive theme if you are giving out any.
