Thread: [Contract Bug \\_ my yellow buy button doesn't work.](#)

**NYANxCAT** - August 21, 2020, 8:41 am

When users press buy, the url won't work.

<https://prnt.sc/u3m23b>

**Angela White** - August 21, 2020, 8:49 am

i just tested it with your MassLogger product and clicking the buy button re-directed me to the Sellix URL ending on "15a04"

Please cancel the contract btw, only started it to help you figure out the issue :)

Some customers facing same issue.

**flavoral** - August 21, 2020, 9:54 am

Tested it from mobile on your Lifetime package, redirected without any issue.

EDIT: also works on desktop.

**spiral** - August 21, 2020, 10:15 am

It only happens to the vendor who tries to click the buy now button on one of his contacts for some reason. It will work for everyone else, I noticed the same thing a few weeks ago.

This ^

Spiral found it a few weeks ago and we tested it together.

He had hard time explaining Xerotic since all links on spiral's contracts did work for him lol
