Live snaps usually say "Taken X seconds ago" or something along those lines, From Camera means the photo wasn't taken in that moment and it comes from the gallery.

User is selling a free version of chicken cam available on Google, also denied about the uploaded snaps mentioning anything about "from" it says that in the thread too, bought 3 slots, should've went w one, recieved chickencam which clearly says "x seconds/mins/hours ago from phone" his argument is it doesn't say "from" but he thinks it's alright if it says " from phone" like does the other phrase not constitute the word from in it!? I have paid for a service and was expecting something along the lines of snxp where it'd upload clean fake snaps, app clearly is a bust, got in touch w him, guy denied giving me a refund, and the worst bit is his inability to accept where he is doing people wrong when clearly it's all out there where HE SAYS IT HIMSELF ABOUT IT "NOT UPLOADING ANYTHING EXCEPT THE USER'S TIME" then spoke about how it said only for iOS when clearly it mentions ANDROID and iOS... stay away from buying this app, you wanna get this for free google chicken cam free download and follow the steps from GitHub site, have all the conversations and necessary screenshots so anyone who thinks my dispute isn't right can ask me for em.

The user got the app he paid for, the app doesn't say "from Camera Roll" on stories. Only the iOS version shows the time. I'm not the first nor the last to sell this app here, the user should probably go somewhere else for whatever he is looking for.

Definitely asked if it was 'this' kinda app, wasn't wanting to buy this kind. Literally asked twice, once on HF convo and second time on discord, also the part where you claim about iOS only giving out the time and nothing else? Funny thing is the part where it says that on your thread mentions ANDROID FIRST then iOS, it's all good man, when ppl ask me for screenshots imma send them, hope it was worth getting a negative on your sales I DID offer you a couple days to refund it, I get it that you're tryna make bread, we all are, selling something which is free but worth the time you invested knowing about it and did it enough times to make sure it works and can be sold to other people is okay too, fabricating a bunch of stuff and the prevaricating statements after is DEFINITELY A NO.

Edit:

"your" 'ios only features' are unlimited accounts and cloud integration with DB, where do you see it saying "no camera roll+only time shown in snaps as iOS only"!? You remember your own thread there, chief?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
