Remove paid sticky Ebook offers from the "Beginners hacking" section

It would be nice if all the 95% garbage ebooks get moved to the actual marketplace section.

when clicking on beginners hacking I (and I think a lot more people) expect discussions and tutorials for hacking news

instead we get \$750/DAY INSANE MONEY MAKING METHOD START TODAY

thanks for taking the time.

I don't think they should remove it, but make it more expensive to post stickies there for sure. disagree maybe only if its just 1 admin verified actual good eBook for beginner hackers that would be dope.

but not those nonsense make money fast eBooks

Turn up the price for stickies is a way I agree with doing this.

Omniscient - August 23, 2020, 12:22 pm

Sorry but that section doesn't sell out for stickies so I won't raise the price. Paid stickies support the site financially and so I ask that you show some tolerance for them.
