Thread: [Faceit ac cheat good budget](#)

TheCrazyONE - August 23, 2020, 4:50 pm

Looking for a trusted developer to code me a priv8 one.

Good budget

Scammers gtfo, I know who can be deemed a trusted dev.

PingersAndMash - August 23, 2020, 5:03 pm

You will only get scammed on here, even if there was someone trusted here they wouldn't sell to you because of you're bad rep

I was exposed for playing on an account that got banned because I was testing certain bypasses???

Glad to see you have a brain.

Besides, they still wouldn't sell to you because of 1 - your behavior, 2 - you're not known, and have

nothing to lose when it comes to leaking the cheat provided to you, 3 - you most likely would not be able to afford a custom written cheat for said Anticheat, especially when all you post is "good budget".

So even if I hire a private developer for a private cheat which only I will have access to it will still be detected? Is that what you're saying

Sugoi-desu - August 24, 2020, 4:35 pm

You should give up on this, the only way you will get a cheat that won't get you banned is with contacts and getting into circles, and the only way you're gonna do that is becoming known as a player

There is a 95% chance you will be detected using a private developer and there's a high chance you will just straight scammed I'm just trying to help you not waste money even if you have a lot.

What I don't get is if you cheat you get a high elo / rank but your games get harder and harder so you have to cheat and play more and more blatant so what is the point you're better off paying someone to teach you to become better legit so you don't look at the ground.

Nah, not true at all. All it takes is having like 2.5k elo or something and you'll be the next big thing with aimbot ;)

TheCrazyONE - August 25, 2020, 4:53 am

Thanks for the info guys, im on 2000 elo so it wouldn't be a problem on 2500+ elo.

I'd literally shit on them with aimbot.

You clowned yourself once, and me asking to borrow \$8 with the premise I'd pay him back in 1 hour, is weird how?

At the time of asking, I was "friends" with said person, who ended up leaking my cheat which got him banned from my services.

lort1234 - August 27, 2020, 10:32 am

BadSoft please don't trash talk this thread, if he is trying to find a faceit ac cheat, let him. But the only think you are proving right now, is that you aren't as true as you want people to think you are, if you where legit and actually was making private cheat for people it probably wouldn't be a good idea to be known as a toxic person, and also the proofs of you scamming people are preeeety much there.

The only proof that is there is from 514blizzy, someone who LEAKED my cheat, and got banned. It's not a scam if you leak my cheat and I tell you to fuck off, you had a working product, leaked it and u got denied further access.

Thanks for checking something before you post though.

and I really do not care if people believe me or not, it's always fun getting into toxic situations, it's quite laughable at times.

I don't provide to randoms anyway, unless vouched for by a current user.

514blizzy - August 27, 2020, 7:41 pm

LMFAO. do i need to go get the 3 other people that you scammed to come and make a post here?

i paid you 1200, bought you pizza, listened to you cry about ur little girlfriend, beg me for money on numerous occasions. send you about 500+ more id say. the only cheat i used from u was that mouse driver whjich we BOTH got banned after 2 or 3 days.

yes, blame it on me leaking ur shitty public paste, the people i leaked it to laughed so fucking hard.

Well he says something else, he said that the cheat got detected even tho is was a private UD cheat, and then he leaked is and THEN you blocked him lmao. Actually have checked you, i did so because you also try to sell a private cheat om d3, even tho you have said on this forum you don't sell private cheats, but you still do? Lmao.
