Let me grab this opportunity thanks in advance.

The reason I need is for, just built a new PC last week. Planning to install all original software. I do not like to install any software with cracks. So, If this is genuine and it would be really helpful to wrap up my build. On top of that, it has a VPN which I really need of.

Hi,

I purchased a new laptop about two months ago. Then my father got hospitalized. I never had a chance to buy a security software for the same. As a trial version was installed. And the same has expired now. I have incurred huge bills for my father's treatment and this AVG license would be of great help to me.

Thanks in advance.
