Thread: [Selling LIMITED Game Accounts | RDR2, GTA V & GOOGLE DRIVE ADD-ON | FULL ACCESS](#)

MagicCarpetMan - August 24, 2020, 3:59 am

Hello and welcome to my page, I have access to a few accounts loaded with new games. I'm new here and only accepting PayPal as of now, I'm selling the accounts at a discounted price because I don't have much of a reputation as of yet. Hopefully over time I will be able to establish myself. Please be a little patient if there are any issues, I will respond asap if you run into any problems :)

You are given full access to the account, with changeable email and password. If you have any issues doing this, or any inquiries, message me through this site.

Accounts Available;

Red Dead Redemption 2 | Social Club Account + Full Access = \$8 x1
Google Drive | Unlimited Storage Add-On | Service = \$5 x1
Grand Theft Auto 5 | Epic Games Account + Full Access = \$8 x1
Counter Strike: Global Offensive | LEM | 1000hrs+ | NoPrime = \$5 x2

Red Dead Redemption 2

This is a social clubs account, not an epic games account. Once you receive the account login details, it's your responsibility to change both the password and email to the account. In not doing so, you might lose the account. So please follow this step.

Google Drive Add-On

When payment is processed, you will be given a new drive added to your GMail account. Once the drive is added to the account, you can remove my user and only you have access to that drive. All I need is the GMail address you want the hard drive to be added on. Once the drive is added onto your account, I am not responsible for what you store on it/use it for. Activation takes one or two hours. Payment can be processed through PayPal. Please give me the GMail address you want the drive added to after you pay, if you don't give me a GMail address then I can't add the drive.

Grand Theft Auto 5

This is an Epic Games account. Once you receive the account login details, it's your responsibility to change both the password and email to the account. In not doing so, you might lose the account. So please follow this step.

Counter Strike: Global Offensive | Steam Account

This is a steam account, with changeable password and email. Once contract is accepted, you will be redirected to my paypal page specifically made for the purchase of the account. Once you receive the account login details, it's your responsibility to change both the password and email to the account. In not doing so, you might lose the account. So please follow this step. It has over 1000hrs played on the account, with LEM rank. Though no prime.

Frequently Asked Questions

Why don't you accept other payment methods?

As stated previously, I'm new here. I'm still figuring out the ways of these marketplaces, I'm still learning how to use Bitcoin and such, and waiting to make some small profits so that I have a foundation for myself. Right now I only have very few accounts.

I want a game that's not on this list, do you have it?

I will try to find what you need at a reasonable and fair price, shoot me a message and I may be able to get you an account with full access. I only sell full access accounts.

I got banned for breaking rules in a game, refund?

What you do in the game is your responsibility. Use common sense, adhere to the game's rules and policies and you won't get banned. Once account is sent, and payment is processed, you are given full ownership of the account. What you decide to do with it is up to you!

I'm not online 24/7, so if I'm asleep I won't be able to do any business. Though I will respond ASAP.
