Thread: [RAT with File Manager/Password Stealer/ Keylogger](#)

Cannan - August 24, 2020, 4:43 am

Hello

First of all, a compliment to the forum and the users who share a lot of information here.

I need a Rat for one time, the Rat must have:

Password Stealer/Recovery for the Browser IE/Firefox/Chrome.

Mail Password Stealer from Outlook.

File Manager.

Keylogger but is not a must.

I dont want to paid for the Rat, because i will need it only 1 time, what i can pay is for the crypter.

So, u know a Rat that include these functions and a good Crypter for Win Defender ?

Thank You

Elijah - August 24, 2020, 6:58 am

I think bitrat has all the features.

Did you even read what the OP said. He doesn't want to pay money for the RAT.

by bad,

OP the only option left for you is async rat, but does not have all stealers that you need.

Criptorat - August 24, 2020, 2:52 pm

HichamRat.....

Isn't that another outdated version of modified nJRAT?

Hisense1 - August 24, 2020, 3:18 pm

Go for AsyncRat, then use cracked # Rat as backup..Lol

?BADMAN? - August 24, 2020, 3:35 pm

I suppose you don't want to pay for a crypter neither , right ?

Fluxe - August 24, 2020, 7:36 pm

infect w async first then drop a better stealer after tht

DI?E - August 24, 2020, 8:14 pm

Well, if your going for any free rat and do not have any means of crypting it your success level is at about %0.00001 infecting the machine.

thanks async rat works like charm

Now i have tested the async it works good, now i need the crypter for that anyone has a good recommendation ?

thanks

Morphine - August 26, 2020, 6:15 am

Check out my rat is fud and also it has these features
