Thread: [\[FREE\] Runtime/Cloud Crypter - VERY GOOD DETECTION RATE](#)

Zappiii - August 24, 2020, 10:23 am

Want to share a modified github crypter with you all. It's C# based and actually close to totally FUD. Bypasses WD, Avira, Avast, Kaspersky, Eset, in ST/RT and Cloud. Got few detections from minor AVs (360 and Bullguard).

Tried it with Asyncrat.

It's free, so if you want to give a try you're welcome. Convo me to have a copy for free!
