If you guys want to watch an amazing movie watch

The Maze Runner 1 2 and 3. I personally love them and wish the producer would make a 4th!

I always mean to watch these movies I remember reading the books in high school, they were a really good series. Think I'm gonna pull the trigger and watch the first one on my day off this week

There incredible I've watched them all 5 times already, the only thing that makes me upset is that the producer doesn't wanna do a 4th which doesn't make sense since theirs so many questions like
What dyatted the virus
How did they all end up in the maze
Etc

This is a really good watch. At least the movies came close to the books for a change. Always hate when they change the story when adapted to the movies.
