Winds' Shopify Store Creation Services

The #1 Store Building Creation Service in HF.net

Welcome everyone,

Today I'm excited to bring to the community a special service that took me a long time to master - a service that benefits entrepreneurs & internet marketers and will make them a lot more money in the long term.

Whether you're starting a new business from scratch or looking for someone to create a one-product store for your Dropshipping business, you NEED a professional to do the job.

And here's why...

Many dropshippers or new business owners FAIL not because of their advertising strategy or product choice, but because of:

[X] Bad website optimization - the site take a lot of time to load (according to Google's statistics people will leave your website if it doesn't load in under 4 seconds!)

[X] Unprofessional copywriting and product description - people just aren't convinced enough to purchase the product because of this

[X] Bad website design - the site looks unprofessional, without a real brand identity behind it (like a bad AliExpress/Amazon clone)

[X] It's missing the "small things" - whether it's proper legal pages (Terms of Service & Privacy Policy) or a professional logo

All of these factors & more are rookie's mistakes (that are being taught by fake online gurus) and are making you LOSE MONEY.

These problems can be avoided by hiring a real professional that'll work on your site.

Here's exactly what I have to offer...

My guarantee is to provide a store that skips all of the mistakes that rookies make, a store that doesn't look like a another (sh*tty) "Dropshipping store".

In short, while other create stores, I create brands. It doesn't have to be Dropshipping, it can be POD, digital downloads, dropservicing, and even a real small business.

So here's what you're going to get:

[?] A real brand. Not a Dropshipping store.

[?] Professional copywriting included in the home page, product pages, and reviews.

[?] Elegant design that won't look like an AliExpress knockoff (AKA no shitty urgency timers).

[?] Professional graphics including a logo for the shop & profile page, FB cover, etc.

[?] Premium paid themes can be used for your store (more than \$200+ in value)

[?] Blazing-fast loading times for your store along with image optimization

[?] Technical support included, along with guidance for FB Ads and help with pixel integration, setting up socials and more

[?] Amazing conversion rates, which is by far the most important factor in the store!

?? Take A Look At Some Of My Stores And See Exactly What I'm Talking About... ??

Frequently Asked Questions

Q: Why does delivery take so long?

A: The answer is quite simple, I'm not going to copy-paste your store. It takes a lot of time and effort for me to create a brand, write copywriting, and handle the graphics, which is a good thing because that means that while others are creating the same stores over and over again I build a unique store that fits your business perfectly.

Q: How does payment work?

A: I only accept PayPal F&F (Friends and Family) and cryptocurrency. You have to send the full payment (no 50/50) because I'm already extremely reputable on the site without any disputes and negative b-rating. In short, there's no real reason why I should accept 50/50.

Q: How will I receive the store?

A: I'll transfer the ownership of the store to you via my Shopify Partners dashboard. After transferring the store I won't have access to the admin panel anymore and you'll need to pay for a plan (\$29/month).

Q: Do you provide any revisions for the store?

A: Of course! Just let me know what you don't like and I'll change it/remove it. Unlike a lot of other freelancers I won't leave you unsatisfied and therefore I offer unlimited revisions, which means that changes to the store come included with no additional cost at all.

Q: Can I get a refund?

A: No refunds are being made after the payment unless it took me more than 10 days to deliver your store.

Terms of Service

Spoiler ([Click to View](#)) All sales are final, no refunds unless it took me more than 10 days to deliver your store.

Charging back the payment will result in a store deletion, even if I don't have the password to your store I can contact Shopify Partners to delete your store due to scamming. A deal dispute will be opened on you as well.

You have to understand that I have a personal life as well, so spamming my Skype/Discord/Telegram or disrespecting me as a seller will result in the end of the deal. I'm not going to deal with people who don't know how to conduct business.

All in all the service is definitely worth the money and I will most likely buy it again sometime in the near future.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
