Where the hell can I buy a ewhore pack? Idk why it's so hard for me to find where to go

Depends on the type of pack you are looking for. Or more generically, you can look in the pinned threads in the ewhore section, or just in the premium sellers section in the marketplace. For example, the thread in my signature selling some hand made verification packs is in the sellers section. PM for more information if you have a more specific question.

Look in the E-Whoring section under Beginner Hacking. It's a great resource if you're just getting started, but the sellers have very saturated packs as they sell to everyone that buys it, meaning majority of the time people will recolonize you on [BRAND NAME REMOVED] or wherever you're advertising and you miss out on adds. Some of the smaller known packs are much better and are usually Onlyfans/Twitter girls, which will never be recognized. So just a caution when buying. I'd suggest doing a little bit of research and see what you can find first.

Personally I don't think you need to. They are usually very saturated. Have a browse on Twitter for a while and figure it out.

If you are a starter I recommend the free ones. When starting, packs really aren't the problem, I am trying out a VERY saturated pack of a known snapchat personality and so far none recognized me it's crazy.

Check the stickies in the Ewhore section or PSS in the marketplace.

If you new to eWhoring, start with a free one for experimenting. Then you can buy one, that has low possibilities of being saturated and start making some good bucks. When you are familiar with eWhoring, you can approach models and offer them an amount of money for a custom pack that only you will have.
